To Whom It May Concern

This is to certify that S.M.Khayrul Islam, BSSE0822 has successfully completed the project titled "Image Steganography" at Institute of Information Technology, University of Dhaka under my supervision and guidance in the fulfillment of requirements of Software Project Lab – I.

_____

Shah Mostafa Khaled

Assistant Professor

Institute of Information Technology

University of Dhaka

Acknowledgement

I thank my honorable supervisor Shah Mostafa Khaled for the guidance during the research. His wise direction and advice showed the path to explore in the field of this study. The support he extended every time is the key to success in this research work.

I would like to thank our honorable SPL-I Coordinators Rezvi Shahariar, Assistant Professor, IITDU and Amit Seal Ami, Lecturer, IITDU. Without their support I can not perfectly finish my project.

S.M. Khayrul Islam

Executive Summary

Image steganography focus on hiding information from others. Now a days we can communicate around the world so the communication must be reliable. There are many encryption process helps to provide security to the information. In image steganography we create an environment that no one can understand that something is hidden inside it. In this process the secret message never affect it remain as before so, we say that it is a better process to data hiding.
